Product Overview

Reliable Water Transfer Solution

This gasoline-powered water transfer pump is designed for efficiency and durability in demanding environments. Featuring a 4-stroke, OHV single-cylinder engine with cast iron cylinder lining, it provides consistent power for irrigation, construction, and water removal tasks. The unit includes an automatic oil alert system for engine protection and a large muffler for quieter operation, ensuring both longevity and ease of use.

Engine Specifications

Engine Power

5.5 HP
Horsepower

Protection Features

- Oil alert system with automatic engine shut-off
- Cast iron cylinder lining

Engine Type	4-stroke, OHV (overhead valve), single cylinder, air-cooled

Design & Build

Design Highlights

- Neat and economical classical design
- Protective frame for stability
- Large muffler for quiet operation

Compliance & Standards

Certifications	CE, EC-II, EPA, CARB, EMC
