Automobile Air Conditioning Condenser

This automobile air conditioning condenser is designed for efficient heat transfer and optimal cooling. The condenser is constructed with durable materials to withstand demanding automotive environments and ensure long-lasting reliability.

Product Overview

High-Performance Cooling Solution

This automobile air conditioning condenser is engineered for superior heat transfer and optimal cooling performance. Constructed with durable materials, it is built to withstand demanding automotive environments while ensuring long-lasting reliability. The compact design allows for straightforward installation and broad compatibility across a wide range of vehicle models.

Technical Specifications

OEM Standards	Yes
Model Identifier	LT292
Production Code	201612

Key Features

Performance Highlights

- High-efficiency heat transfer
- Durable construction for automotive environments
- Compact design for easy installation
- OEM specification compliance
