Portable Gasoline Generator

This portable generator is designed for providing electrical power in remote locations or during power outages. It features a gasoline-powered engine, AC outlets for connecting devices, and a durable frame for protection and portability.

Overview

Reliable Portable Power

This portable gasoline generator is engineered to provide dependable electrical power in remote locations or during unexpected power outages. Built with a durable frame for enhanced protection and easy transport, it is an ideal solution for powering essential tools, appliances, and various electrical equipment. Its robust design ensures consistent performance when you need it most.

Technical Specifications

Performance Metrics

120 V	60 Hz
Voltage	Frequency

Fuel Source	Gasoline

Features

Key Features	Portable, Durable Frame, AC Outlets, Remote Power Ready

Applications

Suitable For

- Powering construction tools
- Emergency home backup
- Remote job sites
- Outdoor equipment operation
