

0.5-Ton Chain Lever Hoist

This chain lever hoist is designed for lifting in industrial and construction environments. It features a durable chain and lever mechanism for efficient lifting and positioning of loads up to 0.5 tons.

Product Overview

Industrial Lifting Performance

The 0.5-Ton Chain Lever Hoist is a robust and reliable tool engineered for versatile industrial and construction tasks. Featuring a compact, lightweight design, it allows for easy transportation and maneuverability in confined spaces. Equipped with integrated safety features including an overload protection system, it provides a dependable solution for lifting, pulling, and tensioning heavy loads.

Technical Specifications

Rated Lifting Capacity

0.5 Ton
Capacity

1100 lbs
Capacity

Safety Features

Overload Protection, Safety Hook

Design Characteristics

Key Features

- Compact and lightweight design
- Smooth lever mechanism
- Durable chain construction
- Versatile for pulling and tensioning

Application

Primary Applications

Construction • Industrial Lifting • Load Positioning • Tensioning
