Personal Cooling Fan with Mist Sprayer

This compact device combines a fan and mist sprayer for personal cooling. It is designed for portability, featuring a refillable water reservoir and adjustable settings.

Product Overview

Stay Cool Anywhere

This personal cooling fan integrates a high-efficiency mist sprayer to provide immediate relief in hot environments. Its lightweight and compact design makes it an ideal solution for professionals on the move, travelers, or those seeking desktop climate control. Featuring customizable fan speeds and adjustable misting levels, it ensures a tailored comfort experience for any setting.
