

1-Phase 20A Electronic AC Contactor for HVAC

This single-phase electronic AC contactor is designed for HVAC applications. It features a magnetic mechanism for reliable switching and is rated for 20A.

ADDITIONAL IMAGES

Product Overview

Compact design suitable for various HVAC and refrigeration systems.

High-Performance HVAC Contactor

This 1-phase electronic AC contactor is engineered for reliable performance in demanding HVAC and refrigeration applications. Featuring premium silver alloy contacts and a shock-resistant actuator, it ensures long-term durability and consistent electrical switching. The unit is housed in a robust molded plastic casing and is designed for easy installation with industry-standard mounting plates.

Electrical Ratings

Magnetic mechanism ensures precise switching control.

Rated Current	20 A
Phase	1-Phase
Coil Voltage	24-277V
Frequency	50/60Hz
Compliance	IEC60947-4-1

Mechanical Specifications

Engineered with durable components for reliable HVAC operation.

Mechanical Life

1000000 cycles
Cycles

Housing Material	Durable Molded Plastic
Contact Material	Premium Silver Alloy

Installation Data

Torque Requirements

Component	Torque
Screws	22 in lbs
Lugs	40 in lbs
