High Bay LED Industrial Light

This high-bay LED light provides powerful and efficient illumination for industrial spaces. It features a robust housing with a heat sink and a reflective dome-shaped shade for wide area coverage.

Product Overview

High-Performance Industrial Lighting

This high-bay LED industrial light is engineered for demanding environments such as large warehouses, factories, and commercial facilities. Featuring a robust housing and integrated heat sink, it ensures reliable thermal management and long-term durability. The included reflective, dome-shaped shade provides optimized, wide-area illumination to improve visibility and safety across expansive workspaces.

Key Features

Suitable Applications	Warehouse, Factory, Commercial Space, Industrial Facility

Design & Construction

Design Elements

- Robust dark-colored housing
- Integrated heat sink for thermal management
- Reflective dome-shaped shade for wide illumination

Lighting Type

High-Bay LED • Industrial Grade
