

10 kVA to 25 kVA Super Silent Diesel Generator

This super silent generator ranges from 10 kVA to 25 kVA and is designed for low-noise operation. It features a robust enclosure for sound dampening and weather protection.

Product Overview

Super Silent Diesel Performance

This diesel generating set, with a capacity range of 10 kVA to 25 kVA, is engineered specifically for environments where noise control is critical. Its robust enclosure provides effective sound dampening while ensuring weather protection, making it an ideal power solution for residential areas, healthcare facilities, and urban construction sites. The unit combines reliable power delivery with efficient fuel consumption and an advanced control system to ensure safe, stable operation.
