Product Overview

High-Efficiency Fast Charging Solution

This versatile switching power supply is engineered for rapid and reliable device charging, supporting Quick Charge 3.0 technology. With intelligent voltage switching across three distinct modes, it optimizes power delivery to ensure safety and efficiency for smartphones, tablets, and other USB-powered electronics. Its compact design and robust protection features make it an ideal choice for professional-grade power management.

Technical Specifications

Total Power Output	18 W
Input Voltage Range	100-240V AC
Input Frequency	50-60Hz
Safety Certifications	GS, CE

Charging Performance

Charging Modes

Voltage	Current
5V	3.0A
9V	2.0A
12V	1.5A

Supported Output Currents

- 0.5A
- 1.0A
- 2.1A

Key Performance Metrics

3 modes
Charging Modes

12 V
Max Voltage
