

10-Ton Hydraulic Bottle Jack

This hydraulic bottle jack is designed for heavy-duty lifting applications with a 10-ton (20,000 lbs) capacity. It features sturdy steel construction, smooth hydraulic operation, and an adjustable screw extension for added lift height.

Product Overview

Heavy-Duty Hydraulic Power

The 10-Ton Hydraulic Bottle Jack is engineered for demanding lifting applications across automotive, construction, and industrial sectors. Constructed from robust steel, it provides a stable and reliable solution for lifting heavy machinery, trucks, and vehicles. The integrated hydraulic system ensures smooth operation, while the adjustable screw extension adds versatility to your required lift height.

Technical Specifications

Maximum Load Capacity

10 ton

Capacity

20000 lbs

Capacity

Material Composition

High-grade steel

Safety & Operation

Safety Instructions

- Do not exceed rated load capacity
- Always rest base on a firm, level surface
- Support vehicle under lift points immediately after lifting
- Read all provided instructions prior to operation

Integrated Safety Systems

Overload protection valve, Adjustable screw extension, Hydraulic pressure control
