Product Overview

Reliable Long-Term Fire Safety

This 10-year sealed battery smoke alarm is engineered for continuous residential protection against fire hazards. Featuring an advanced photoelectric sensor, it excels at detecting slow-smoldering fires while minimizing nuisance alarms. With a maintenance-free 10-year lifespan, this device ensures long-term peace of mind without the need for battery replacements.

Technical Specifications

Sensor Technology	Photoelectric
Battery Life	10 years
Key Features	Test Button, Silence Feature, End-of-Life Signal, Tamper-Resistant

Installation & Use

Mounting Options

- Ceiling Mount
- Wall Mount

Suitable Environments

Residential • Office
