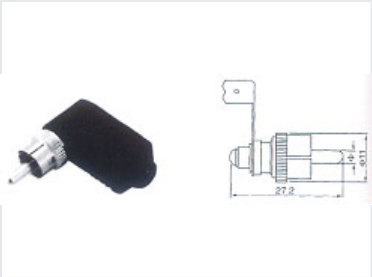
Right Angle Coaxial PAL Connector

This is a right-angle PAL plug designed for coaxial cable termination. Its robust construction ensures reliable signal transmission and lasting durability in various audio and video applications requiring a 90-degree connection.



Product Overview

Right Angle Coaxial PAL Connector

This right-angle PAL plug is specifically engineered for coaxial cable termination, offering a robust solution for reliable signal transmission. Its 90-degree design is ideal for space-constrained audio and video installations where standard straight connectors may not fit. Built for durability, this connector ensures a secure connection for professional A/V applications.

Technical Specifications

Key Dimensions

11 mm	27.2 mm
Diameter	Length

Connector Type	PAL Plug
Orientation	Right Angle (90-degree)
Key Features	Robust Construction, Reliable Signal Transmission, Durable, Space-saving Design
