

1000 kVA Diesel Power Generator Set

This diesel generator set delivers reliable power at 50Hz/60Hz, 230V/400V, and 0.8pf. It is designed for continuous operation and housed in a durable container for protection and portability.

Overview

High-Capacity Power Generation

This 1000 kVA diesel power generator set is engineered for robust and reliable performance in demanding environments. Housed within a durable, protective container, it ensures both portability and long-term operational integrity. It is an ideal solution for industrial, commercial, and emergency backup power applications requiring consistent, high-output energy.

Design & Construction

Enclosure Type	Durable Containerized
Suitable Applications	Industrial, Commercial, Emergency Power

Key Features

Core Components

- High-performance diesel engine
- Dependable alternator
- Advanced control systems

Operational Mode

Continuous Operation
