Overview

High-Performance Hydraulic Winch

This 10000 lbs hydraulic winch is engineered for demanding engineering vehicles and heavy-duty recovery tasks. Built for reliability, it features a mechanical brake system and an IP67 waterproof rating to withstand harsh environmental conditions. Its durable, high-quality paint finish ensures long-lasting protection against fading and wear.

Safety Guidelines

Operational Safety

- Read instruction manual before use
- Maintain at least 5 wraps of wire rope on drum
- Do not exceed rated pulling capacity
- Wear protective gloves during operation
- Keep clear of wire rope and fairlead during operation
- Do not use for personnel transport
