Overview

Reliable Power Generation

This 100KVA Diesel Generator Set is engineered for consistent performance in industrial, commercial, and residential environments. Featuring a robust enclosure for noise reduction and weather protection, it is designed to serve as both a reliable backup power source and a primary power solution for remote locations. The system ensures stable voltage and frequency output, making it suitable for powering sensitive electronic equipment.

Performance Metrics

Rated Power Output

100 KVA
Power Output

Noise Level 80 dB

Technical Specifications

Power Factor 0.8 lag
Connection Method Three-phase & four-wire

Operational Capabilities

Overload Allowance 10% overload permitted for 1 hour per 12 hours of continuous operation

Customization Options

Available Customizations Single-phase, 60Hz frequency, Custom voltage ranges
