Children's Red and White Tricycle

This tricycle is designed for young children learning to ride. It features a sturdy metal frame, a comfortable plastic seat, and durable tires.

Product Overview

Classic Tricycle for Early Development

This children's tricycle features a classic red and white design, engineered to provide a stable and engaging riding experience for young children. With a sturdy metal frame and a low center of gravity, it ensures safety while helping toddlers build confidence and develop essential motor skills. The durable construction makes it an ideal choice for daily play and outdoor learning.
