Compact Audio Loudspeaker with Circular Diaphragm

This compact loudspeaker is designed for audio reproduction. It features a circular diaphragm and a metallic casing.

Product Overview

Compact Audio Loudspeaker

This compact loudspeaker is engineered for high-quality audio reproduction in various electronic device applications. Featuring a circular diaphragm design, it balances acoustic performance with a space-saving footprint. The unit is constructed with a durable metallic casing and a precision-engineered coil and magnet assembly, ensuring reliability and clear sound output.

Technical Details

Key Components

- Circular diaphragm
- Dark-colored cone
- Flexible suspension
- Cylindrical magnet and coil housing

Diaphragm Shape	Circular
Casing Material	Metallic

Application

Primary Application	Audio Reproduction, Electronic Devices, Compact Systems
