

10.8V Cordless Two-Speed Power Drill

This 10.8V cordless drill features a two-speed gearbox for versatile drilling and screwdriving. An adjustable clutch with multiple torque settings offers precise control.

Product Overview

Professional Cordless Drill

The 10.8V Cordless Two-Speed Power Drill is a versatile and compact tool designed for efficiency in various drilling and fastening tasks. Featuring a 2-speed gearbox and an adjustable clutch, it offers precise control for both delicate and heavy-duty applications. Its lightweight, ergonomic design ensures comfort during extended use, while the integrated LED light enhances visibility in dim work environments.

Technical Specifications

Model Number	BC0102
Voltage	10.8 V
