

10A 1-Gang 1-Way Wide Dolly Switch with Fluorescent Strip

This is a 10A 1-gang 1-way switch with a wide dolly. It also features an integrated fluorescent strip for enhanced visibility.

Overview

Modern Wide Dolly Switch

This 10A 1-gang 1-way switch features a contemporary wide dolly design, engineered for both aesthetic appeal and ease of use. The unit incorporates a fluorescent strip, ensuring the switch is easily locatable in low-light environments. Designed for efficient installation, it utilizes a screwless profile and clip-on modules to streamline the mounting process.
