Overview

Compact Cooling Solution

This 10-liter portable refrigerator and freezer offers a versatile cooling and heating solution for vehicles and personal use. Utilizing advanced thermoelectric technology, it provides an environmentally friendly, noise-free operation without the need for traditional refrigerants. Its unique beverage-can-inspired design makes it a stylish and functional addition for road trips, office desks, or as a promotional gift.

Technical Specifications

Power Consumption

40 W DC Cooling	56 W AC Cooling	32 W DC Heating	52 W AC Heating
---------------------------	---------------------------	---------------------------	---------------------------

Volume Capacity	10 L
Cooling Capacity	15°C - 20°C below ambient temperature
Heating Capacity	55 °C
Voltage Compatibility	DC 12V, AC 100-240V

Physical Attributes

Weight

Type	Weight
Net Weight	5 KGS
Gross Weight	5.5 KGS

Dimensions	27cm x 27cm x 48.5cm
Insulation	Solid polyurethane foam (100% CFC & HCFC free)

Compliance & Features

Certifications

ROHS • CE • ETL

Key Features

- Thermoelectric cooling technology
- AC/DC power compatibility
- Quiet operation
- Environmentally friendly
- Portable design
