Electric Steam Iron with Base Station

This high-performance electric steam iron is designed for efficient garment care. It features a separate base station providing a stable platform and facilitating easy refilling.

Overview

High-Performance Garment Care

The HG-130P electric steam iron is engineered for efficiency and professional garment care. Featuring a separate base station for continuous steam generation and a durable soleplate, it offers smooth gliding across various fabric types. With precise temperature control and powerful steam bursts, this iron is designed to handle everything from delicate fabrics to heavy-duty materials with ease.

Performance Features

Steam Functionality	Powerful Steam Bursts, Continuous Steam Generation, Anti-Drip System

Design & Usability

Base Station Benefits

- Stable platform
- Easy refilling
- Integrated water reservoir

Ergonomic Design	Yes
Cord Storage	Yes

Technical Specifications

Temperature Control	Adjustable dial for precise heat settings
