

10x25A Outdoor Telescope

This telescope features 10x magnification and a 25mm objective lens diameter, providing a balance of power and portability. It is constructed with durable materials for reliable performance in various environmental conditions and ensures clear and crisp images.

Overview

High-Performance Outdoor Optics

The 10x25A Outdoor Telescope is a precision optical instrument engineered for versatility and portability. Featuring 10x magnification paired with a 25mm objective lens, it delivers clear, crisp imagery for nature observation and outdoor activities. Built with durable materials, this telescope ensures reliable performance and longevity in diverse environmental conditions.

Technical Specifications

Key Performance Metrics

10 x Magnification	25 mm Lens Diameter
------------------------------	-------------------------------

Magnification	10
Objective Lens Diameter	25 mm
Best For	Nature Observation, Outdoor Activities, General-Purpose Viewing
