EPDM Rubber Car Door Weatherstrip Seal

This high-quality EPDM rubber car door weatherstrip seal offers excellent protection against water, dust, wind, and noise. Its flexible bulb design ensures optimal contact, while its clip-on feature allows for simple installation.

Product Overview

High-Performance Weathersealing Solution

This EPDM rubber weatherstrip seal is engineered to deliver superior protection against water, dust, wind, and noise infiltration. Designed with a flexible bulb seal for optimal contact and a convenient clip-on installation mechanism, it ensures a reliable barrier in demanding environments. Its resistance to extreme temperatures and UV exposure guarantees long-lasting durability, making it an ideal choice for maintaining cabin comfort and equipment integrity.

Key Features

Material	EPDM Rubber
Design Features	Flexible Bulb Seal, Clip-on Installation, UV Resistant, Temperature Resistant

Applications

Automotive Uses

- Door seals
- Truck seals
- Window weather stripping
- Wheel well spacers

Industrial & Construction Uses

- Railcars
- Industrial electrical equipment
- Construction machinery
- Bridge and tunnel seals
- Curtain wall frames
- Containers, drums, and barrels

Building & Architectural

- Slider door seals
- Garage door seals
- Egress window frames
- Edge guards
