Fluted Tube Cake Pan Non-Stick

This non-stick fluted cake pan is designed with a central tube to promote even baking and create a visually appealing cake shape. The pan features a durable construction for long-lasting use and easy cleaning.

Product Overview

Professional Fluted Tube Cake Pan

This durable fluted tube cake pan is engineered for consistent, high-quality baking results. Featuring a robust construction and an advanced non-stick coating, it ensures effortless cake release and a perfectly golden-brown crust every time. The integrated central tube design optimizes heat distribution to guarantee that even the center of the cake is thoroughly baked, making it an ideal tool for professional kitchens.
