Foldable 2-in-1 Wireless Charging Pad for Phones and Earbuds

This device can fast charge two devices at the same time. It features a foldable design for portability and ease of storage.

ADDITIONAL IMAGES

Overview

Fast charge two devices simultaneously with the open configuration.

Versatile 2-in-1 Wireless Charging Solution

This foldable 2-in-1 wireless charging pad offers a convenient and efficient way to power up your mobile devices. Designed for versatility, it supports simultaneous charging for two devices, such as smartphones and earbuds, and features a foldable design that easily transitions between a flat pad and a charging stand. Fully compliant with Qi 1.2 standards, it ensures broad compatibility and reliable performance for all Qi-enabled electronics.
