

110cc Moped Scooter Motorcycle

This moped scooter motorcycle is equipped with a reliable 110cc engine, providing sufficient power for navigating city streets. Its compact size and nimble handling make it easy to maneuver in congested traffic.

Overview

Urban Commuter Solution

This 110cc moped scooter is designed for comfortable and efficient urban mobility. It features a spacious riding position with a 30-inch seat height, making it suitable for taller riders and providing ample legroom. Equipped with 13-inch wheels for nimble handling, it combines practicality with user-friendly features like a lockable glove box, under-seat storage, and a detachable rear carrying case.
