Fuel Injector - 23670-30280

This fuel injector ensures precise atomization and consistent spray patterns for improved combustion. It is engineered for durability, withstanding high-pressure conditions to deliver long-lasting performance.

Product Overview

High-Performance Fuel Injection Solution

This fuel injector is engineered for optimal fuel delivery and engine efficiency, ensuring precise atomization and consistent spray patterns. Designed to withstand high-pressure conditions and demanding engine environments, it contributes to improved combustion and reduced emissions. It serves as a direct-fit replacement, meeting stringent quality standards for reliable, long-lasting performance in various automotive applications.

Technical Identification

Precision-engineered fuel injector featuring advanced atomization technology for efficient combustion.

Part Number	23670-30280
Compatible Part Numbers	23670-30280, 23670-30300

Performance Features

Performance Highlights

1 Type	100 %
Precision Atomization	OEM Compatibility

Functional Benefits

- Optimized fuel delivery for engine efficiency
- Consistent spray patterns for improved combustion
- Reduced exhaust emissions
- High-pressure and temperature resistance
- Direct fit for easy installation

Manufacturing & Quality

Quality Assurance

Precision Machined • Rigorously Tested • High Durability

Service Scope

- Drawing design
- System solutions
- After-sales support

Rooms 05–15, 13A/F South Tower, World Finance Centre, Harbour City, 17 Canton Rd, Tsim Sha Tsui, Kowloon, Hong Kong
