Gasoline Powered Chain Saw

This gasoline chain saw is a robust and powerful tool designed for demanding cutting tasks. Featuring a high-performance gasoline engine, this chain saw delivers reliable power and efficient operation.

Product Overview

Professional Gasoline Chain Saw

This high-performance gasoline chain saw is engineered for demanding cutting tasks in heavy-duty environments. Featuring a powerful 52cc engine and a 20-inch bar, it delivers reliable output for efficient wood processing. The unit is designed with operator ergonomics and durability in mind to ensure long-lasting performance on the job site.

Technical Specifications

Displacement	52 cc
Rated Output Power	1.9 kw
Idling Speed	2800 r/m

Cutting Performance

Max Cutting Diameter	550 mm
Bar Size	20 in
Standard Bar Type	sprocket

Capacity and Weight

Fuel Tank Capacity	550 ml
Oil Tank Capacity	260 ml
Net Weight	7 kg

Key Features

Product Highlights	Gasoline Powered, Heavy-Duty, Sprocket Nose Bar, Professional Grade
