Overview

Professional Silent Diesel Power Solution

This 11kW silent diesel generator is engineered for reliable performance in demanding environments, featuring a robust 498cc engine and a fully enclosed canopy for quiet operation. Designed for both construction and emergency backup, it offers a hassle-free electric start and integrated wheels for enhanced job-site mobility. With advanced safety features like low-oil shutdown and a hydraulic-magnetic circuit breaker, it provides stable and secure power for critical equipment.

Performance

Power Performance

6400 W

Running Watts

6000 W

Peak Watts

9 h

Runtime @ 50% Load

Engine & Fuel

Fuel System Features

- Large-capacity steel fuel tank
- Incorporated fuel gauge
- Low fuel consumption design

Engine Displacement

498 cc

Technical Features

Operational Features

- Electric start with battery included
- Double mufflers for quiet operation
- Stable output frequency
- High output torque

Safety & Protection

Hydraulic-Magnetic Circuit Breaker, Low-Oil Level Shutdown, Automatic Voltage Regulation (AVR), Covered Outlets

Physical Design

Construction Details

- Fully enclosed silent canopy
- Rugged steel frame
- Integrated transport wheels
- Weather-protected outlets

Applications

Recommended Usage

Construction Sites • Outdoor Events • Emergency Backup • Storm Season Support

Logistics

Standard Lead Time

35 days for container and sample orders
