

12-Inch Adjustable Wrench with Chrome Finish

This 12-inch adjustable wrench is designed for gripping and turning various fasteners. The adjustable jaw accommodates a wide range of sizes, and it features both metric and imperial scales.

Product Overview

Professional Grade Adjustable Wrench

This 12-inch adjustable wrench is a versatile hand tool engineered for reliability in demanding professional environments. Constructed from heat-treated 45# carbon steel, it offers exceptional strength and durability for gripping and turning various fasteners. With a precision-machined slide jaw and smooth worm gear adjustment, users can achieve exact fastener fits quickly and efficiently.

Technical Specifications

Overall Length	300 mm
Max Jaw Capacity	36 mm
Weight	0.65 kg
Material	45# Carbon Steel

Features
