

1/2-Inch Garden Hose Quick Connector

This 1/2-inch hose quick connector allows for rapid and secure attachment and detachment of hoses. Constructed from UV-resistant materials, it ensures long-lasting performance and prevents water wastage.

Overview

Efficient Garden Irrigation Solution

This 1/2-inch garden hose quick connector is engineered for rapid and secure attachment and detachment of hoses, making it easy to switch between various watering tools. Constructed from high-quality, UV-resistant materials, it is designed to withstand the rigors of outdoor use while ensuring long-lasting performance. The user-friendly design features a ribbed grip for secure handling and an internal mechanism that provides a leak-proof seal to prevent water wastage.

Technical Specifications

Hose Compatibility

0.5 inch

Connector Size

Connection Type

Quick Connector

Design & Build

Material Properties

UV-Resistant, High-Quality, Durable

Grip Design

Ribbed grip for wet-hand handling

Performance

Seal Performance

Leak-Proof • Tight Seal

Key Benefits

- Rapid attachment and detachment
- Maintains optimal water pressure
- Resistant to wear and tear
- Compatible with standard 1/2-inch hoses

Applications

Primary Applications

Gardening, Irrigation Systems, Watering Accessories
