

12-Inch Non-Sparking Adjustable Wrench

This 12-inch adjustable wrench is designed for safe operation in environments where sparks could pose a hazard. Constructed from non-ferrous materials, it ensures a secure grip on various fastener sizes.

Product Overview

Safety-First Adjustable Wrench

This 12-inch non-sparking adjustable wrench is engineered for high-risk environments, including oil, gas, chemical, and mining industries. Crafted from specialized non-ferrous alloys, it effectively prevents combustible gas explosions caused by friction or impact. The tool features a precise adjustment mechanism, making it ideal for safely striking, disassembling, and fastening hexagon bolts and nuts in explosive or strong magnetic field environments.

Technical Specifications

Tool Length	300 mm
Max Jaw Opening	36 mm
Material Options	Beryllium Bronze (Be-Cu), Aluminum Bronze (Al-Cu)
Manufacturing Method	Die forged

Compliance & Quality

Compliance Standards

- GB10686-2013 (Explosion-proof tools)
- GB/T4388-4393-1995

Certifications

ISO9001:2008

Applications

Primary Industries	Petroleum, Petrochemical, Mining, Natural Gas, Chemical, Power Generation, Electrolytic Aluminum
