

1/2-Inch Reduced Shank Drill Bits

These 1/2-inch Silver & Deming drill bits are constructed from high-speed steel. They feature a reduced shank for compatibility with standard drill chucks and are suitable for drilling large diameter holes.

Product Overview

Professional Silver & Deming Drill Bits

These 1/2-inch reduced shank drill bits are engineered for high-performance drilling in a variety of materials including metal, wood, and plastic. Constructed from high-speed steel, they offer exceptional durability and long-lasting service life for demanding professional and DIY projects. The reduced shank design ensures compatibility with standard drill chucks, allowing for the efficient creation of large-diameter holes.

Shank Diameter

Technical Specifications

Shank Type

Reduced Shank • Silver & Deming

Material

High-Speed Steel (HSS)

Applications

Ideal Applications

- Large diameter hole drilling
- Professional industrial use
- Heavy-duty DIY projects

Compatible Materials

Metal, Wood, Plastic

Product Features

Performance Features

- Durable construction for long-lasting performance
- Fits standard drill chucks
- High-speed steel for heat resistance
