Perforated Grill Pan with Handles

This perforated grill pan is ideal for grilling smaller items or vegetables, preventing them from falling through the grill grates. The perforations allow for even heat distribution and smoky flavor infusion.

Product Overview

Professional Grade Perforated Grill Pan

This perforated barbecue pan is designed to enhance your grilling experience by allowing you to cook smaller items or vegetables with ease. The durable metal construction ensures long-lasting performance, while the strategic perforations promote even heat distribution and allow smoky flavors to infuse your food. With sturdy chrome handles, this pan offers a practical solution to prevent small ingredients from falling through your grill grates.
