

1200W Gasoline Generator with 12V DC Output

This gasoline generator is designed for single-phase power generation. It delivers 1200W output and includes a voltmeter, DC 12V output, and circuit breaker.

Overview

Reliable Portable Power Generation

This 1200W gasoline generator is designed for versatile single-phase power generation, making it an ideal solution for powering small appliances and essential tools. Featuring a robust 3.0 HP engine and a 6L fuel tank, it provides consistent performance for various applications. With integrated safety features like a circuit breaker and a convenient 12V DC output, this unit is built to support both AC and DC power needs in a compact, portable package.

Engine Specifications

- Engine Power: 3.0 HP
- Model: EM156
- Starting System: Recoil

Technical Details

Fuel Tank Capacity	6 L
DC Output	12V 8.3A
Construction	100% Copper Wire, Single Phase, Voltmeter Included, Circuit Breaker Protected
