Overview

Portable Solar Power Solution

This 120W portable solar panel is engineered for high-efficiency energy conversion, boasting 23% cell efficiency for reliable power in outdoor settings. Designed for versatility and ease of use, it features a foldable structure with integrated kickstands, making it an ideal companion for camping, RV trips, and off-grid power generation. With multiple output options including DC, USB-A, and USB-C, it seamlessly integrates with portable power stations and mobile devices.
