Overview

Professional Power Solution

This heavy-duty jump starter is engineered for both professional job sites and reliable family use. Featuring a versatile 12V/24V dual-voltage system and high-capacity internal AGM batteries, it provides the cranking power needed for demanding automotive and industrial applications. Built with an impact-resistant case and rugged components, it ensures durability and safety in harsh environments.

Technical Specifications

Cranking Amps

1200 A

12V Cranking

600 A

24V Cranking

Peak Amps

2400 A

12V Peak

1200 A

24V Peak

Battery Type

Sealed AGM

Battery Capacity

18 AH

Features

Integrated Utilities

- 12V DC Outlet Socket
- Ultra Bright Work Light
- SOS Emergency Mode
- Internal Battery Status Indicator
- Built-in Voltmeter

Safety Protections

Reverse Polarity Protected, Short Circuit Protection, Over Charging Protection, Visual LED Warning

Construction

Build Specifications

Component	Detail
Case	Impact-resistant
Clamps	Insulated heavy-duty pure metal
Cables	Heavy-duty 2 gauge
Handle	Rugged ergonomic design
