

125-200cc On/Off-Road Motorcycle

This motorcycle is designed for both on and off-road use. Equipped with a reliable engine, likely in the 125cc to 200cc range, it offers a balance of power and fuel efficiency.

Overview

Versatile On/Off-Road Performance

This 150cc motorcycle is engineered for reliability and utility, making it an excellent choice for diverse transportation needs. Featuring a robust four-stroke single-cylinder engine and a sturdy chassis, it balances power with fuel efficiency for both paved roads and rugged terrain. With practical design elements like dual cargo racks and a dependable dual-start system, it offers consistent performance for professional and daily use.
