Professional Salon Hair Dryer with Stand

Professional hair dryer machine with adjustable height stand and transparent hood. It features an integrated control panel for setting time and temperature and a stable base with rolling casters for easy maneuverability.

Overview

Professional Salon Hair Dryer

This professional-grade hair dryer machine is engineered for high-performance salon treatments. Featuring an adjustable height stand and a transparent hood, it allows stylists to monitor hair condition easily while providing efficient, even heat distribution. Designed for both professional salon environments and high-end home use, the unit includes an integrated control panel for precise time and temperature management.
