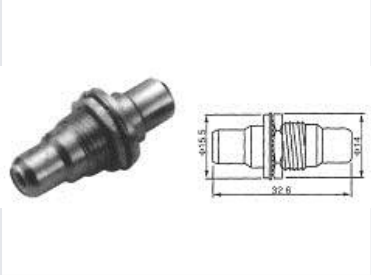
RCA Female to Female Bulkhead Connector

This RCA double female bulkhead connector is designed for panel mounting. It provides a secure connection for RCA cables in audio and video applications.



Product Overview

Professional RCA Bulkhead Connector

This RCA double female bulkhead connector is engineered for reliable panel-mount applications, making it an essential component for audio and video integration projects. Its durable construction ensures a secure, high-integrity signal path for feed-through connections. Designed for versatility, this connector is ideal for professional A/V setups requiring robust panel-mounted interfaces.

Technical Specifications

Connector Type	RCA Female to Female
Mounting Style	Bulkhead / Panel Mount

Dimensions

Key Dimensions

15.5 mm	14 mm	32.6 mm
End Diameter A	End Diameter B	Overall Length

Applications

Primary Applications	Audio Systems, Video Systems, Panel Integration, Feed-through Connections
