Square Point Digging Shovel with D-Grip Handle

This square point shovel is designed for digging and moving tasks in the garden and around the yard. The shovel features a durable steel blade with a square point, a D-grip handle, and a wooden shaft.

Product Overview

Professional Grade Digging Tool

This square point digging shovel is engineered for efficient digging and material handling tasks in both professional landscaping and gardening environments. Featuring a high-durability steel blade and a sturdy wooden shaft, it is designed to move soil, sand, and gravel with ease. The integrated D-grip handle promotes ergonomic control and minimizes hand fatigue during repetitive or long-duration projects.

Construction

Blade Material	Steel
Shaft Material	Wood

Design

Grip Type	D-Grip
