

125cc Three-Wheeled Utility Motorcycle with Cargo Bed

This 125cc three-wheeled motorcycle is designed for utility and transport. It features a cargo bed with railings, offering ample space for carrying goods.

Product Overview

Built for Utility

The 125cc three-wheeled utility motorcycle is engineered for reliability in commercial and personal transport tasks. Featuring a high-capacity cargo bed with protective railings, it offers an efficient solution for hauling goods securely. Its robust frame and specialized suspension system ensure stability and durability when operating under heavy load conditions.
