Product Overview

Professional Wet Cutting Solution

This 125mm continuous rim diamond saw blade is engineered specifically for precision wet cutting applications. It is compatible with a wide range of hard building materials, including tile ceramics, glass, marble, granite, and concrete. Designed for professional use, this blade delivers clean cuts and reliable performance in demanding masonry environments.

Technical Specifications

Blade Diameter	125 mm
Bore Size	22.2 mm

Performance Metrics

Maximum Operating Speed

12200 r.p.m.

Max RPM

80 m/s

Max Cutting Speed

Usage & Safety

Cutting Method

Wet Cutting

Required Safety Gear

- Eye protection
- Ear protection
- Face mask
- Gloves

Compatible Materials

Tile Ceramics, Glass, Marble, Granite, Concrete
