

125mm Stone Cutting Wheel - 7mm Thick

This stone cutting wheel is designed for maximum efficiency and durability. It features a robust construction suitable for demanding applications, ensuring clean and precise cuts.

Product Overview

High-Efficiency Cutting Performance

This 125mm stone cutting wheel is engineered for demanding industrial applications requiring precision and durability. It excels at processing tubes, profiles, structural steel sheets, and solid materials, offering a high cutting speed and extended service life. The wheel is designed to ensure comfortable operation with minimal burr development, making it an efficient choice for professional use.

Technical Specifications

Dimensions (DxTxH)	125 x 7.0 x 22.23 mm
Maximum RPM	12250 min
Max Operating Speed	80 m/s
Specification Code	C30S5BF42
Article Number	MSTC507073

Compliance & Safety

Standards	EN 12413
-----------	----------

Key Features

Performance Advantages

- High cutting speed
- Extended lifetime
- Low burr development
- Comfortable operation

Primary Applications

- Tubes
- Profiles
- Solid material
- Structural steel sheets
- Eaves flashing
