

12V 200Ah AGM VRLA Battery

This 12V 200Ah AGM VRLA battery provides reliable power storage. The maintenance-free, sealed lead-acid design ensures safe operation in various orientations.

Overview

Reliable AGM VRLA Power Storage

This 12V AGM VRLA battery is engineered for demanding applications requiring consistent and dependable power. Utilizing advanced oxygen recombination technology, it offers a maintenance-free operation with an 8-year design life. Its robust construction, featuring high-purity materials and PbCaSn alloy grids, ensures minimal self-discharge and enhanced durability for critical backup systems.

Technical Specifications

Nominal Voltage	12 V
Nominal Capacity	200 Ah
Design Life	8 years
Battery Technology	AGM, VRLA, Maintenance-free, Oxygen Recombination

Construction & Safety

Safety Features

- Non-spillable design
- Flame-retardant ABS material (optional)
- High-purity raw materials
- PbCaSn alloy plate grids

Certifications

CE • UL Recognized

Applications

Primary Applications

- Network communication
- UPS (Uninterruptable Power Supply)
- Emergency backup power
- Alarm and security systems
- Renewable energy storage
