Product Overview

Reliable Power for Lawn Mowers

This 12V 20Ah automotive battery is specifically engineered to deliver consistent starting power for lawn mowers and similar small automotive applications. Utilizing advanced calcium maintenance-free technology, it is designed for longevity and minimal upkeep, ensuring your equipment is ready when you need it. The unit meets rigorous international quality standards, providing professional buyers with a dependable power solution.

Technical Specifications

Voltage	12 V
Capacity	20 Ah
Battery Technology	Calcium Maintenance-Free Lead-Acid
Primary Applications	Lawn Mowers, Automotive

Certifications

Quality Certifications
ISO/TS16949:2009
