Product Overview

Versatile Cordless Power Tool

This 12V cordless drill driver is designed for efficiency and precision in both drilling and screwdriving tasks. Featuring a compact, lightweight design with a high-performance Li-ion battery, it offers extended runtime without memory effects. The integrated LED worklight ensures visibility in dark workspaces, making it an ideal choice for professional and DIY applications.

Technical Specifications

Voltage	12 V
Charging Time	1 hour

Key Features

Advanced Functionality

- Spindle automatic locking
- Variable torque control
- Electronic speed adjustment
- Step speed selection
- Quick-change attachments

Battery Technology

Li-ion • No memory effect

Operation Modes	Screwdriving, Drilling
Worklight	Yes
