Product Overview

Robust Lifting Performance

This electric hoist is engineered for demanding lifting applications, operating efficiently on both 12V and 24V DC power systems. Built with a full steel planetary gear reducer, it ensures durability and long-lasting performance in various industrial, automotive, and recreational settings. The unit prioritizes safety through an integrated ratchet-paw brake system and is fully compliant with the CE Machinery Directive 2006/42/EC.

Technical Specifications

Compliance

CE Machinery Directive 2006/42/EC • EN 14492-2

Power Input

12V DC, 24V DC

Gear System

Full Steel Planetary Gear Reducer

IP Rating

IP67

Safety Features

Operational Safety

- Automatic load-holding brake
- Never exceed rated load
- Waterproof construction

Braking Mechanism

Ratchet-paw brake
