

13m Tri-Axle Fence Semi-Trailer

This 13-meter tri-axle semi-trailer is designed for transporting goods. It features a sturdy fence structure for secure cargo containment and a tri-axle configuration for enhanced stability.

Overview

Robust 13-Meter Tri-Axle Fence Semi-Trailer

This 13-meter tri-axle semi-trailer is engineered for reliable and secure cargo transport. Designed with a sturdy fence structure, it ensures excellent cargo containment for various industrial and commercial goods. The tri-axle configuration provides enhanced stability and efficient load distribution, making it an ideal solution for safe, long-distance transportation requirements.

Technical Specifications

Overall Length	13 m
Axle Configuration	Tri-Axle
Structure Type	Fence Semi-Trailer

Key Features

Cargo Containment

Fence Structure • Secure Design

Performance Benefits

- Enhanced stability
- Optimized load distribution
- Safe and efficient material delivery
