

14.4V Cordless Lithium-Ion Drill Driver

This 14.4V cordless drill is designed for drilling and fastening applications. It features variable speed control and an adjustable clutch.

Overview

Professional Cordless Performance

This 14.4V Cordless Lithium-Ion Drill Driver features a durable brushless permanent magnet motor designed for high efficiency and a long working life. Engineered with a soft-grip handle for ergonomic comfort, it offers mechanical two-speed control and variable speed settings for precision in various applications. The unit includes a 1-hour quick-charge capability, ensuring minimal downtime for professional users.

Technical Specifications

Battery System

14.4 V

Voltage

1500 mAh

Capacity

Performance Metrics

- No-load speed: 0-400r/min (Low)
- No-load speed: 0-1400r/min (High)
- Max Torque: 30N.m
- Charging time: 1 hour

Keyless Chuck Capacity

10 mm
